

# SAFETY DATA SHEET

1. Identification

**Product identifier** 

Unifirst First Aid Corp. Instant Hand Sanitizer Fresh Scent®

Other means of identification

Not available.

Recommended use

Not available.

Recommended restrictions

None known.

Manufacturer/Importer/Supplier/Distributor information

Manufacturer

Manufacturer:

Safetec of America, Inc.

887 Kensington Avenue

Buffalo, NY 14215

Company Telephone:

1-716-895-1822

E-mail Address:

www.safetec.com

**Emergency Telephone:** 

1-800-255-3924

Supplier

Refer to Manufacturer

### 2. Hazard(s) identification

Physical hazards

Flammable liquids

Category 3

Health hazards

Serious eye damage/eye irritation

Category 2A

Specific target organ toxicity, single exposure Category 3 narcotic effects

Environmental hazards

**OSHA** defined hazards

This mixture does not meet the classification criteria according to OSHA HazCom 2012.

This mixture does not meet the classification criteria according to OSHA HazCom 2012.

Label elements

Signal word

Hazard statement

Flammable liquid and vapor. Causes serious eye irritation. May cause drowsiness or dizziness.

Precautionary statement

Prevention

Keep away from heat/sparks/open flames/hot surfaces. - No smoking. Ground/bond container and receiving equipment. Use explosion-proof electrical/ventilating/lighting equipment. Use only non-sparking tools. Take precautionary measures against static discharge. Avoid breathing mist or vapor. Wash hands thoroughly after handling. Use only outdoors or in a well-ventilated area. Wear protective gloves/protective clothing/eye protection/face protection.

Response

If on skin (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower. If inhaled: Remove person to fresh air and keep comfortable for breathing. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Call a poison center/doctor if you feel unwell. If eye irritation persists: Get medical advice/attention. In case of fire: Use appropriate media for extinction.

Storage

Keep cool. Store in a well-ventilated place. Keep container tightly closed.

Disposal

Dispose of contents/container in accordance with local/regional/national/international regulations.

Hazard(s) not otherwise

classified (HNOC)

None known.

Supplemental information

None.

# 3. Composition/information on ingredients

#### **Mixtures**

Chemical name	Common name and synonyms	CAS number	%
Ethanol	Alcohol	64-17-5	60 - 73
	Ethyl Alcohol		

Chemical name Common name and synonyms CAS number % Triethanolamine 2,2',2"-Nitrilotriethanol 102-71-6 < 0.30 Tris(2-hydroxyethyl)amine

4. First-aid measures

Inhalation If breathing is difficult, remove to fresh air and keep at rest in a position comfortable for breathing.

Get medical attention if symptoms persist.

Skin contact Wash off with warm water and soap. Get medical attention if symptoms occur.

If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and Eye contact

easy to do. Continue rinsing. Get medical attention if symptoms persist.

If swallowed, rinse mouth with water (only if the person is conscious). Do not induce vomiting Ingestion

without advice from poison control center. Get medical attention.

Most important symptoms/effects, acute and delayed

Causes serious eye irritation. Frequent or prolonged contact may defat and dry the skin, leading to discomfort and dermatitis. May cause drowsiness or dizziness.

Indication of immediate medical attention and special treatment needed

Treat symptomatically.

5. Fire-fighting measures

Suitable extinguishing media Dry chemicals. Foam. Carbon dioxide (CO2).

Unsuitable extinguishing media

Do not use water jet as an extinguisher, as this will spread the fire.

Specific hazards arising from the chemical

The product is combustible, and heating may generate vapors which may form explosive vapor/air

Special protective equipment

mixtures. Thermal decomposition or combustion may liberate toxic gases or fumes.

and precautions for firefighters

Self-contained breathing apparatus and full protective clothing must be worn in case of fire.

Cool containers exposed to heat with water spray and remove container, if no risk is involved.

Fire fighting equipment/instructions

Flammable liquid and vapor.

General fire hazards Hazardous combustion

products

Carbon oxides.

# 6. Accidental release measures

Personal precautions. protective equipment and emergency procedures

Eliminate all ignition sources (no smoking, flares, sparks, or flames in immediate area). Keep unnecessary personnel away. Wear appropriate personal protective equipment. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. For personal protection, see section 8 of the SDS.

Methods and materials for containment and cleaning up Absorb spill with vermiculite or other inert material, then place in a sealed container for chemical waste.

Large Spills: Flush with plenty of water. Prevent entry into waterways, sewer, basements or confined areas. Dike for later disposal.

Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.

**Environmental precautions** 

Avoid discharge into drains, water courses or onto the ground.

7. Handling and storage

Precautions for safe handling

Keep away from heat/sparks/open flames/hot surfaces. - No smoking. Eliminate all sources of ignition. Take precautionary measures against static discharges. Ground/bond container and receiving equipment. Use explosion-proof equipment. Use only non-sparking tools. When using, do not eat, drink or smoke. Wear appropriate personal protective equipment. Avoid breathing mist or vapor. Avoid contact with eyes, skin, and clothing. Use only with adequate ventilation. Wash thoroughly after handling.

Conditions for safe storage. including any incompatibilities Do not store around flammable or combustible materials. Store in tightly closed original container in a well-ventilated place. Keep cool. Store locked up.

### 8. Exposure controls/personal protection

Occupational exposure limits

US. OSHA Table Z-1 Limits for Air Contaminants (29 CFR 1910.1000)

Components Type Value Ethanol (CAS 64-17-5) PEL 1900 mg/m3 1000 ppm

**US. ACGIH Threshold Limit Values** 

Components Value Type Ethanol (CAS 64-17-5) STEL 1000 ppm Triethanolamine (CAS **TWA** 5 mg/m3 102-71-6)

US. NIOSH: Pocket Guide to Chemical Hazards

Components Type Value Ethanol (CAS 64-17-5) TWA 1900 mg/m3 1000 ppm

Biological limit values

No biological exposure limits noted for the ingredient(s). Explosion-proof general and local exhaust ventilation.

Appropriate engineering controls

Individual protection measures, such as personal protective equipment

Wear safety glasses with side shields (or goggles). Eye/face protection

Skin protection

Hand protection Chemical resistant gloves recommended.

Wear chemical-resistant gloves, footwear, and protective clothing appropriate for the risk of Other

exposure. Contact health or safety professional or manufacturer for specific information.

If engineering controls do not maintain airborne concentrations below recommended exposure Respiratory protection

limits (where applicable) or to an acceptable level (in countries where exposure limits have not been established), an approved respirator must be worn. Contact health and safety professional or

manufacturer for specific information.

Thermal hazards Wear appropriate thermal protective clothing, when necessary.

General hygiene

Always observe good personal hygiene measures, such as washing after handling the material considerations and before eating, drinking, and/or smoking. Routinely wash work clothing and protective

equipment to remove contaminants.

9. Physical and chemical properties **Appearance** Gel.

Physical state Liquid. Form Gel.

Specific gravity

0.89

# 10. Stability and reactivity

Reactivity

The product is stable and non-reactive under normal conditions of use, storage and transport.

Chemical stability

Conditions to avoid

Stable at normal conditions.

Possibility of hazardous

Hazardous polymerization does not occur.

reactions

Incompatible materials

Keep away from heat, sparks and open flame. High temperatures. Strong oxidizing agents. Acids.

Hazardous decomposition

products

Carbon oxides.

## 11. Toxicological information

# Information on likely routes of exposure

Inhalation

May cause drowsiness or dizziness.

Skin contact

Frequent or prolonged contact may defat and dry the skin, leading to discomfort and dermatitis.

Eye contact

Causes serious eye irritation.

Ingestion

Ingestion may cause gastrointestinal irritation, nausea, vomiting and diarrhea.

Most important

symptoms/effects, acute and

Skin corrosion/irritation

Serious eye damage/eye irritation

Frequent or prolonged contact may defat and dry the skin, leading to discomfort and dermatitis.

Causes serious eye irritation.

Respiratory or skin sensitization

Respiratory sensitization

This product is not expected to cause respiratory sensitization.

Skin sensitizer

This product is not expected to cause skin sensitization.

Germ cell mutagenicity

No data available to indicate product or any components present at greater than 0.1% are

mutagenic or genotoxic.

Carcinogenicity

This product is not considered to be a carcinogen by IARC, ACGIH, NTP, or OSHA.

IARC Monographs. Overall Evaluation of Carcinogenicity

Triethanolamine (CAS 102-71-6)

3 Not classifiable as to carcinogenicity to humans.

OSHA Specifically Regulated Substances (29 CFR 1910.1001-1050)

Not listed.

Reproductive toxicity

This product is not expected to cause reproductive effects.

Specific target organ toxicity single exposure

May cause drowsiness or dizziness.

Specific target organ toxicity -

repeated exposure

Not classified as a specific target organ toxicity -repeated exposure.

Aspiration toxicity

Not expected to be an aspiration hazard.

## 12. Ecological information

**Ecotoxicity** The product is not classified as environmentally hazardous.

Fathead minnow (Pimephales promelas) > 100 mg/l, 96 hours

#### 13. Disposal considerations

**Disposal instructions** 

Collect and reclaim or dispose in sealed containers at licensed waste disposal site.

Local disposal regulations

Hazardous waste code

Dispose in accordance with all applicable regulations.

The waste code should be assigned in discussion between the user, the producer and the waste

disposal company.

Waste from residues / unused

products

Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).

Contaminated packaging

Empty containers should be taken to an approved waste handling site for recycling or disposal. Since emptied containers may retain product residue, follow label warnings even after container is emptied.
